

Please join us at the Customer Service Centre at Loganholme

To assist our trade customers in making more productive use of their time, we have opened a Customer Service Centre at Loganholme.

With quick access to the M1 and Logan Motorway, the Service Centre will allow you to gather your products and be on your way to the job site very quickly.

All of our Customer Service staff will be moving to Loganholme to ensure you receive the same level of service you are used to.

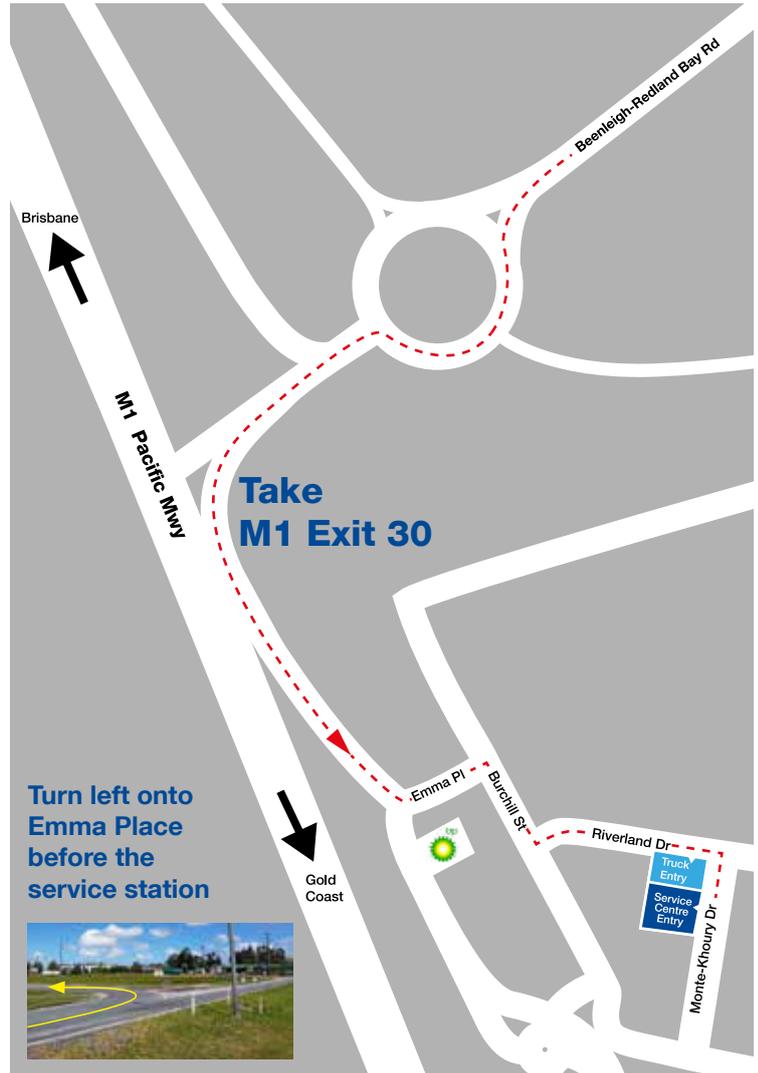

Phone and email addresses are exactly the same so no need to change those contact details in your phone.

For our Trade Customers with utes, we have reserved a *ute only pick up area* at one end of the warehouse. Customers with trucks will be served from the other end of the warehouse.

We hope this allows all of our customers to be served quickly and with the minimum of fuss.

A guide on how to find the warehouse appears on this page. Please remember to turn left off the slip way before the BP service station.

We look forward to greeting you at Loganholme soon.

Our new address is at the corner of Riverland and Monte-Khoury Drives, Loganholme
